

# Enercon Induction Sealing

## Packaging Applications - Voice of Enercon Customers

Enercon induction sealers have sealed billions of containers across the globe. Chances are when you pick up a container off the shelf, it has been sealed by an Enercon induction sealer.

Packagers choose Enercon induction sealers because of advanced technology, reliability, ease of use, and superior customer service and support. Don't take our word for it, below our customers share their experiences with Enercon's Super Seal™ products.

### [Food Packager's exclusive choice: Enercon Super Seal Max™](#)

"We use Enercon exclusively for induction sealing at the plant. That was made official when six other lines at the plant were converted over to Enercon sealers in 2008. We've had a good relationship with Enercon, and they've done a great job of supporting our units."

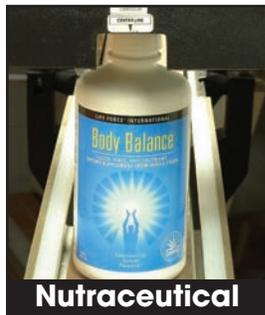

- Tony Bolletta  
Engineering Manager  
ACH Food Co.

### [Vented Liner & Sealer Ensures Integrity Super Seal™](#)

"We rely only on premium packaging equipment for our premium product. You can't put a price tag on dependability. Customer complaints are nearly eliminated, 99% of our problems were solved with the induction sealer. It was a godsend."

- Darryl King  
Director of Operations  
Floratine

### [Leak Prevention for Nutraceutical Packager Super Seal™](#)

"Enercon has tremendous confidence in its products. So we tried it and, sure enough, the Super Seal™ did a super job."

- Charles Bates  
Plant Manager  
Life Force

### [Top Rated Cap Sealer Impresses Super Seal Jr.™](#)

"The Super Seal™ Jr. has been a smashing success for Makes Scents. We just set it up and it does what it's supposed to. Cutting corners on an induction sealer just didn't make smart business sense."

- Joanne Klauber  
Founder  
Make Scents

## **Oil Company Goes Green with Enercon Induction Sealers**

### *Super Seal™*

"Our 2008-2009 initiative was to go green; one of the first places we started was by replacing our Enercon water-cooled induction sealers with Enercon air cooled systems. We eliminated an assortment of maintenance issues with water-cooled, now with the air cooled systems downtime is virtually nonexistent."

- Steve Sampson  
Vice President of Operations  
Catania-Spagna

**Chemical**

## **Induction Sealer Solves Pesticide Leakage Problem**

### *Super Seal™*

"The sealer is easy to operate and adjust. The new sealer has increased efficiency and eliminated issues with seal quality. Enercon is extremely easy to work with and very responsive."

- Grant Getty  
Production Manager  
MGK

**Beverage**

## **Sealer Extends Beverage Shelf-Life**

### *Super Seal™*

"The Super Seal™ Max has different sealing heads available, which has allowed us to increase flexibility and the number of customers we can serve. Extended shelf life helped to our distributors and retailers stock more inventory."

- Tim Ray  
Plant Manager  
Jus-Made

**Food**

## **Cap Sealing Machine Increases Production Efficiency**

### *Super Seal™*

"With the Compak Jr.™, we could seal five units or gallons per minute. The Super Seal™ can seal nine containers per minute. Improving our line speeds and saving in labor costs. Enercon sealers are production workhorses."

- Doug Renfro  
President  
Renfro Foods

**Pharmaceutical**

## **RFID-Friendly Cap Sealing for Pharmaceuticals**

### *Super Seal™ Deluxe*

"Since installing an Enercon induction sealer in our results have been fantastic...economic savings, improved safety, and increased patient satisfaction. Induction sealing also reduces general loss in that we don't have to replace product that's been damaged or spilled."

- Dave Booher  
Pharmacy Manager  
Prescription Solutions
