Convection Heat Tunnels

HT Series

The HT Series Convection Heat Tunnels are excellent shrink tunnel solutions for basic shrink label applications, tamper evident banding, and moisture sensitive product. Compact and mobile in design, this tunnel series is great for versatile contract packaging needs or tight footprint requirements. Expect the highest level of heat and air flow control with HT Series tunnels.

Standard Features

- ① Digital Temperature Controls
- ① Variable Speed Air Flow
- ① Directional Air Control Baffles
- ① Auto Up/Down Tunnel Head
- ① Cantilever Style Stand
- ① Caster Wheels

Typical Applications

- ① Tamper Evident Neck Banding
- ① Moisture Sensitive Products

Applied Materials

- ① PETg
- ① PLA & R*PLA (Sustainable Solutions)
- ① PVC (Seamed & Seamless)
- ① OPS

Product Shapes

- ① Round
- ① Square
- ① Rectangular
- ① Oblong
