

Bundles of benefits

Quick, reliable and user friendly

The OB-360 Series

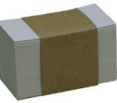

An extremely flexible table top banding machine and a guaranteed professional finish. With a limited investment and the time saved with this machine, the OB-360 quickly pays for itself in comparison to hand bundling.

The OB-360 bundles with the following benefits:

- ◆ damage free bundling, for a careful and stable bundling
- ◆ unprinted and printed paper and film banding material
- ◆ simple to operate
- ◆ easily moved, thanks to its compactness
- ◆ highly reliable with a long life

Tailored to your situation

The OB-360 table top banding machine is *the* solution for small to medium volumes. Bandall International always offers the best banding solution, thanks to its wide ranging banding programme. Please ask us for possibilities specific to your situation.

Simply banding all

The OB-360 is very easy to place in your production process and is easy to move around. Also, operation is as easy as it can be. Therefore, simply and efficiently you achieve a professional and economical finish.

The possibilities with the OB-360 banding machine

- ◆ Choice of hand or foot operation, or automatically by setting a switch
- ◆ Band tension is adjustable, from very loose to ultra tight
- ◆ High level of reliability and a long life
- ◆ The bundle width can vary from as small as a business card to more than A4 size
- ◆ Band width 29mm
- ◆ Paper or film banding material
