- Multifunction Panel with blue, back-lit LCD display for easy user interface and operation
- PS2 keyboard connection for standalone applications
- Adjustable gap sensor and transmissive sensor to match most media
- Large 300 meter ribbon capacity for high volume printing
- Optional external 10" O.D. label stand for increased capacity
- Standard features include Ethernet, USB 2.0, Parallel, Serial and PS2 interfaces

EZPi Series

EZPi series

User panel with backlit LCD display for easy user interface and operation
 Adjustable, auto-adapt sensor for perfect registration on most all label types
 PS2 keyboard connection for standalone applications; no PC required
 300 meter ribbon and optional 10" OD external label roll stand to increase capacity
 Standard interfaces include Ethernet, USB 2.0, parallel and serial DB9
 Seagull Scientific Windows drivers included
 Free QLabel software with database function makes it easy to design and print labels
 Options include: WLAN interface, CF memory adapter with real time clock, rotary cutter, label dispenser, external label roll stand, and external rewinder

EZ-Direct Thermal Printer

EZ Options

Easy Label Holder

Simple to maintain

Useful Interface

Wall-mounted Feature

EZ-DT series

Simple and economical 4.25" direct thermal printer
 Small space-saving design with wall mounted feature
 Standard USB 2.0 and DB9 serial port connections
 Seagull Scientific Windows drivers included
 Free QLabel software with database function makes it easy to design and print labels
 Free USB cable and sample media included with every printer
 Options include: label dispenser, cutter, and ethernet card

EZ-DT4

LR-1000

Label Rewinder

Features

Core Adapters

Rotating Direction Switch
