

DZ-800W

Nozzle Type Vacuum Packing Machine

DZ-800W air extractor machine is suitable for big packing bag of plastic film width of sealing not over 1,000mm, its single-layer thickness not over 0.3mm. for air bleeding & sealing. This machine can extract air in the bag with a vacuum pump, make it small for packing bag, to low the cost of packing and translation. The cloth and cover of chemical fiber and feather and spongy goods its volume is 1/3-1/4 of original, and can fugusproof anti insects.

Specificaliton

Model	DX-800W
Power Supply	380V 50/60Hz
Working Table Area	1,000x650mm
Sealing Width (mm)	1,000mm
Vacuum Pump Efficiency	20m3/h
Machine Size	920x1100x1200mm
Weight kg	95kgs
